Macro Environment

Our Current Macro Reading | July 2026

NIFTY 50	BRENT $/bbl	RBI REPO	GST JUL
24,384	~$87	5.25%	₹2.11L cr
31 Jul 2026	Hormuz risk back	Aug MPC hold	+15.4% YoY

India Equities

Nifty reclaimed 24,000 to close at 24,384 on 31 Jul (+2.2% MoM) — a second straight monthly gain; Sensex +2.1%.

Q1 FY27 prints drove the rotation: financials and autos led, while IT and FMCG lagged into month-end.

Crude & Middle East

The June ceasefire broke down on 8 Jul; Brent round-tripped from ~$74 to $90.7 (29 Jul) before easing to ~$87.

Hormuz is still not fully reopened, and the US naval blockade is back — imported-inflation risk has returned.

RBI, Growth & Inflation

The Aug MPC (5 Aug) held the repo at 5.25% unanimously with a neutral stance — a fourth consecutive hold.

CPI rose to 4.38% in Jun from 3.93%, the highest since Dec 2024, on fuel pass-through and food at 5.32%.

Flows & Rupee

FPIs turned net buyers of ₹20,200 cr in Jul — the first buying month since Feb, ending a four-month streak.

DIIs added ₹35,099 cr (36th straight month); INR ~95.4/$; GST Jul ₹2.11L cr, the fastest growth in 14 months.

Our Outlook – Aug'26

As of 31 July 2026 | Reviewed Monthly

Preferred Themes & Sectors

Financials & Capital Markets

Q1 FY27 prints led the July move; the FPI return and record 21% DII ownership of the Nifty 500 support re-rating.

NIM stability on the 5.25% hold; private-bank P/B still sits below its own history despite the rally.

Metals & Infrastructure

GST at ₹2.11L cr (+15.4%) and import-substitution demand underpin domestic steel, pipe and pellet volumes.

Import safeguards plus government infra capex hold the domestic pricing environment firm through H2 FY27.

Defence & Manufacturing

PLI capex, indigenisation and order-book visibility are insulated from the crude and tariff swings.

Defence electronics and capital goods offer multi-year revenue cover independent of the monsoon cycle.

Pharma & Healthcare

Defensive earnings, with the rupee at ~95.4/$ a structural export tailwind and a hedge to crude-led CPI.

Domestic IPM growing ~9–10% YoY; hospital occupancy ramps are insulated from the global cycle.

Key Risks & Catalysts

Upside Catalysts

- FPI buying sustains after ₹20,200 cr in July
- Hormuz reopening talks progress; crude eases
- IMD sees Aug at 97% of LPA; H2 season normal
- GST momentum at ₹2.11L cr (+15.4% YoY)
- India-US BTA signed; Section 301 rolled back

Key Risks

- Hormuz escalation → Brent back above $100
- CPI at 4.38% and rising erodes rate-cut room
- BTA unsigned; US Section 301 action in force
- El Niño (92% prob.) keeps monsoon ~12% short
- FPI reversal; CY26 still -₹2.54L cr net

Rationales

HDFC BANK

- Merger synergies are now flowing: FY26 PAT rose 10.9% to ₹746.7 bn and loan growth re-accelerated from 5% to 12%, with ex-HDFC mortgage CASA penetration climbing to ~50%.
- Best-in-class asset quality and returns: GNPA of just 1.15%, credit cost down to 35 bps, and RoA held steady at 1.9% for six straight quarters on tight costs (core CTI 39.5%).
- Poised for a multi-year harvest phase: 100 mn+ customers, CET-1 of 17.3%, and over $1 bn of annual AI/tech investment set up structurally higher RoA and double-digit EPS growth.

KOTAK MAHINDRA BANK

- Premium private-bank franchise: one of India's best-capitalised banks with a low-cost liability base and a well-diversified book across retail, SME and corporate.
- Steady compounding: a ~14% five-year EPS CAGR and healthy return ratios, with securities, AMC and life subsidiaries adding meaningful sum-of-parts value.
- Undemanding valuation: at ~2.0x book and ~19x earnings, valuations sit below history, offering a favourable risk-reward as credit growth and NIMs stabilise on the 5.25% repo hold.

Brainstormerz
A Cosmea Group Company

Portfolio Rationale

Rationales

EDELWEISS FINANCIAL SERVICES

- Strong earnings momentum: FY26 consolidated PAT (post-minority) rose 37% YoY to ₹547 cr, with customer reach up 31% to 14 mn and customer assets up 11% to ₹2.4 tn.
- Alternatives platform at scale: AAM AUM reached ₹72,706 cr (+22% YoY) and FPAUM ₹44,710 cr (+32%); the Citius InvIT IPO and EAAA placement externally validate platform value.
- Improving mix and deleveraging: MF equity AUM ₹78,000 cr (+22%) and SIP book up 58%, while management expects ₹2,500–3,000 cr of cash realisation in FY27 to strengthen the balance sheet.

GO DIGIT GENERAL INSURANCE

- High-growth digital insurer: a five-year EPS CAGR of ~43%, riding rapid adoption of technology-led general insurance.
- Very attractive price-to-growth: a PEG of just 0.35, offering strong earnings growth at an undemanding valuation.
- Improving profitability: RoE of ~12% and RoCE of ~13% on a scaling ₹28,080 cr franchise.

Brainstormerz
A Cosmea Group Company

Portfolio Rationale

Rationales

BHARAT ELECTRONICS

- Powerful order visibility: a ~₹73,000 cr order book plus a deep pipeline (QRSAM, LCA Mk-1A avionics, Akash-NG, Kusha) underpins management's 15–17% annual revenue growth target over 3–4 years.
- Premium, resilient margins: sustainable ~27% EBITDA margins on a richer mix of 350+ systems and 70–73% indigenisation, as BEL moves into full system integration via the AMCA partnership with L&T.
- New growth engines: exports guided from 3–4% toward 10% long term and non-defense (data centres, cyber, space) rising from ~7% to 15%, cementing BEL as India's core defense-electronics platform.

MAHINDRA & MAHINDRA

- Strong, broad-based FY26: consolidated revenue rose 24.8% YoY to ₹1,98,639 cr and PAT rose 32.3% to ₹17,099 cr, with Q4 PAT up 41.7% YoY — confirming durable earnings momentum.
- Auto leadership widening: Auto revenue grew 30% YoY; SUV revenue share climbed 260 bps to 25.3%, LCV <3.5T share reached 52.3%, and M&M is the No. 2 EV player, with a 10 ICE + 6 BEV pipeline to FY31.
- Cash-rich and diversified: a high-margin Farm engine (43.6% share, 20.8% tractor PBIT margin) plus a ₹41,159 cr treasury fund capacity expansion, EV investments and growth optionality.

Portfolio Rationale

Rationales

GOKALDAS EXPORTS

- Clear sequential recovery: Q4 FY26 revenue rose 9% QoQ to ₹1,069 cr and PAT jumped 146% QoQ to ₹36 cr after penal-tariff removal and the AGOA renewal.
- India remains a compounding core: FY26 India income of ₹3,373 cr at a healthy 12.4% EBITDA margin grew 10% YoY, even as broader Indian apparel exports declined.
- Multiple growth levers ahead: Africa turning (guided 8–10% H2 FY27 margins), new Karnataka/Bhopal capacity (~₹300 cr revenue) and BTPL scaling past ₹1,000 cr, plus upside from UK/EU FTAs.

LLOYDS METALS & ENERGY

- Sector-leading returns: an outstanding RoE of ~37% and RoCE of ~27%, driven by a sharp ramp in iron-ore output and pellet capacity.
- Explosive growth runway: a best-in-class five-year EPS CAGR as the company integrates backward and moves up the value chain into pellets, DRI and integrated steel.
- Attractive price-to-growth: a PEG of ~0.4 shows the premium multiple is well-supported by exceptional earnings momentum and margin expansion.

Rationales

JSW STEEL

- Scale leader: India’s largest steel producer (~₹3.01 lakh cr market cap), with an expansion roadmap toward ~50 MTPA underpinning long-term volume growth.
- Cyclical upside: ~9–10% domestic steel demand growth on infrastructure and auto, while cost efficiencies and captive raw-material integration support margin recovery.
- Policy tailwinds: government infra capex (NIP, PMGSY) and import safeguards strengthen the domestic steel pricing environment.

RATNAMANI METALS & TUBES

- Market leader: India’s leading stainless- and carbon-steel pipe & tube maker, serving oil & gas, water and infrastructure with a healthy order book.
- Quality fundamentals: a RoCE of ~18% on a debt-light balance sheet, well-placed for rising domestic capex and import substitution.
- Structural demand: a beneficiary of energy-transmission, water (Jal Jeevan) and city-gas pipeline build-outs, supporting durable double-digit growth.

Brainstormerz
A Cosmea Group Company

Portfolio Rationale

Rationales

SRF

- Diversified specialty leader: a resilient franchise spanning specialty chemicals, fluorochemicals, packaging films and technical textiles that cushions the cycle.
- High-margin core: agrochemical and pharma intermediates plus next-generation refrigerant gases drive a high-quality, high-growth specialty engine.
- Capex-led compounding: sustained investment in specialty chemicals underpins a multi-year earnings ramp, supporting the premium franchise multiple.

SUPRIYA LIFESCIENCE

- High-quality API franchise: leadership in niche molecules (antihistamines, anaesthetics) with a strong slate of regulatory approvals across regulated markets.
- Best-in-class returns: a RoCE of ~25% and RoE of ~19% on a lean, backward-integrated cost structure and improving product mix.
- Growth visibility: capacity expansion, CDMO/CRAMS traction and new filings support durable double-digit growth, with a PEG of ~1.0 keeping valuation fair.

Rationales

ARTEMIS MEDICARE

- Standout growth: a five-year EPS CAGR of ~69% — among the fastest in the portfolio — as the hospital network scales and matures.
- Improving returns: RoCE of 14.5% and RoE of 11.9%, with operating leverage building as occupancy and case mix strengthen.
- Growth at a fair price: despite a premium multiple, a PEG of ~1.0 shows the valuation is well-supported by earnings momentum.

NBCC (INDIA)

- Strong profit growth: FY26 revenue rose 7% YoY to ₹12,889 cr and PAT jumped 33% to ₹742 cr, with a particularly robust standalone Q4 (revenue +21.6%, PAT +60.4% YoY).
- Exceptional order visibility: a consolidated order book of ₹1,27,820 cr — roughly 9.9x FY26 revenue — anchored by a redevelopment moat (WTC Nauroji Nagar 100% sold; 7 GPRA sale value ₹36,904 cr).
- Clear multi-year runway: management targets ₹18,000 cr / ₹25,000 cr revenue by FY27 / FY28, aided by large stalled-project mandates (Amrapali, Supertech) and a strong government redevelopment push.

Rationales

JSW ENERGY

- Clean-energy compounder: a ~₹98,935 cr power major transitioning toward a round-the-clock green portfolio, with a five-year EPS CAGR of ~21%.
- Multi-year visibility: a large renewable, storage (pumped-hydro/battery) and green-hydrogen pipeline underpins durable, largely contracted growth.
- Structural theme: a core play on India's energy-transition and decarbonisation drive, scaling toward ~20 GW by 2030 with predictable cash flows.

INDIAN HOTELS

- Premium hospitality leader: a ~₹1,04,352 cr market cap anchored by the Taj brand and a strong RoCE of 17.1%.
- Robust earnings growth: a five-year EPS CAGR of ~31% on a powerful domestic travel and leisure upcycle.
- High-quality, capital-light expansion: RoE of 14.2% supported by a growing management-contract and new-brand portfolio.

Brainstormerz
A Cosmea Group Company

Rationales

SAMHI HOTELS

- Branded turnaround at scale: a Marriott/Hyatt/IHG-partnered platform delivering 9–11% same-store revenue growth, with Q1 FY27 tracking double digits.
- Deep value: a strong RoE of ~25% at just ~9x earnings and a PEG of ~0.2 — among the cheapest growth in the portfolio.
- Self-funded growth: capex fully funded by ₹300 cr+ FCF (no dilution), net debt/EBITDA falling toward 2.5x, and ₹3,000 cr+ cumulative FCF guided over FY27–31.
