TATACOMM	CMP: Rs 1,986/-	Mkt Cap: Rs 56,854 Cr

Tata Communications is a global digital infrastructure and enterprise technology company that helps businesses connect their networks, data centers, cloud platforms, applications, and customers worldwide. Backed by a 240,000+ km global subsea network, the company serves enterprises across 190+ countries. Around 85% of revenue comes from Data Services, including connectivity, cloud, cybersecurity, IoT, collaboration, and digital platforms.

- Tata Communications operates a Tier-1 global network carrying 30% of global internet routes and has a rapidly scaling Digital Portfolio that now contributes 85% of Data revenues. Within this, the CPaaS business alone addresses an $11 Bn TAM by FY25, expected to expand to $30 Bn by FY30.
- Management is transforming Cloud, CIS, Media, Security, and IoT businesses by first reducing losses, then reaching EBITDA breakeven, and finally scaling them into stable double-digit margin segments. The strategy focuses on shifting toward high-margin SaaS-based digital services like AI, cloud, multi-cloud, and edge, while exiting low-value contracts and improving overall revenue quality.
- Tata Communications is transitioning from low-margin telecom services to high-margin digital and software-led offerings like Voice AI, cloud, cybersecurity, and orchestration platforms, improving profitability and net revenue retention. It is also increasing "on-net" traffic via its own global fiber and subsea network to reduce third-party costs. Management's shift from gross to net revenue focus is driving higher-margin, cash-flow-accretive contracts.
- Company is leveraging its leadership position with 40% market share in India to capture growth from the expanding data centre ecosystem, targeting the emerging DC-to-DC connectivity market expected to reach $1 billion by 2030. It also plans to scale this model internationally, currently operates as a challenger to strengthen its global presence.
- Revenue target for Data business Rs 28,000 cr by FY28 (vs Rs 21,000 cr. FY26) and 23–25% EBITDA margins ahead, driven by growth in its Digital Fabric businesses, increased contribution from high-margin digital and SaaS-led services, higher "on-net" traffic through its own global network, and improved operating leverage from its existing infrastructure.
